Re: Andalex Resources Inc (wholly-owned subsidiary of UtahAmerican Energy Inc.)  
 Centennial Project, C007/0019, Carbon County, Utah  
 a) Proposed Elimination of Sediment Basin B  
 b) Proposed Construction of new Administration Bldg./Bathhouse

Dear Ms Littig;

Enclosed are 5 copies of revised text and maps proposing to eliminate Sediment Basin B and replace it with a parking area. The basins are no longer needed for sediment or runoff capacity, as shown by the enclosed text. This proposal will involve the enlarging of an existing ditch (DD-10), and placement of an 18" cmp culvert in a section of the ditch for parking access.

We are proposing to construct a new administration office/bathhouse in the general area of the Aberdeen mine portals. The exact location of this building is not yet determined pending detailed surveys and final design engineering, but it will be located in the existing disturbed area near the present office building.

We are proposing to store any excavated material from the office construction in the "Pond B" parking area and/or in the depression of the abandoned (no longer used) Sediment Pond A. We will be discussing the details of this proposal on-site with the appropriate Division staff members within the next several weeks.

## Detailed Schedule of Changes to the MRP

Permittee: Andalex Resources

Provide a detailed listing of all changes to the mining and reclamation plan which will be required as a result of this proposed permit application. Individually list all maps and drawings which are to be added, replaced, or removed from the plan. Include changes of the table of contents, section of the plan, pages, or other information as needed to specifically locate, identify and revise the existing mining and reclamation plan. **Include page, section and drawing numbers as part of the description.**
